

LIU-43C Specifications

Model	LIU-43C
Power Supply Voltage	Power Supply Voltage : 11.6~30V DC Allowable Load Resistance: See the attached diagram Maximum Start Current : 24mA
Output Signal	4~20mA DC
Overall Accuracy	±0.15% F.S. or ±6mm, whichever is greater
Display Unit	Meters (m) to 2 decimal places
Update Interval	5 seconds or less at 4mA output
Bandwidth	Approximately 10°
Ambient Temperature	-40~+80°C
Mounting Temperature	-40~+85°C
Tank Pressure	0.05MPa or less
Usage Environment	Indoor and Outdoor
Housing	Cover Material: Polycarbonate Case Material: PBT Sensor Material: PVDF Cable Gland: G 1/2" Weight: 1.1kg Protection Rating: IP68
Display	16-character x 2-line LCD
Maximum Measuring Length	6m
Dead band	0.25m
Transmission Frequency:	52kHz
Mounting Method	Threaded : G 2"
